

## Actively Enhancing Lives.

Making a Vital Difference everyday!

### *Always Growing...*

Recently, I was asked to describe the Peter Becker Community in a few words. The words that came to mind were *Always Growing*. Growing is defined as becoming greater over a period of time. The residents of Peter Becker Community are amazing individuals with hearts that are ever expanding for the needs of their neighbors. In a time when it would be easy to disengage from activities, our residents are volunteering their time making beds in skilled nursing, working in the gift shops, giving rides to medical appointments, and sharing meals with neighbors facing challenges. By engaging their hearts and their actions they continue to grow and live vitally impactful lives that benefit others in meaningful ways.

Peter Becker Community's Corporate Partnership program is a connection point between the vision of local companies that have share the like passion of helping to provide the best possible quality of life and care to the residents of PBC and the seniors in our local community. Your company will be directly linked to a project, area of focus or service that connects with your vision and provides a lasting impact to the health of our seniors. Through your companies support we are able to integrate new technology platforms, provide better quality of life for those facing the challenges of dementia and memory loss, and/or help those valuable community members who have out lived a portion of their personal reserves.

By partnering together we can incorporate your companies desire to make a lasting impact in the local area and create a bright tomorrow to these valuable community members that have contributed so much in making our region a great place to live. Please consider joining us in this impactful initiative.

### *Every gift makes a difference!*

Your companies ongoing support of Peter Becker Community's Corporate Partners Program sustains the promise of innovative services and outstanding programming that enhance the quality of life for all our seniors. The following are project areas that we invite you to join us in supporting.

*Benevolence* - Provides financial support for residents experiencing an unexpected financial challenge. These funds ensure that every resident lives a full and purposeful life.

*Memory Care* - Engaging compassionate supervision, activities of daily living, and providing safe outdoor environments that support quality of life and personal dignity.

*PBC General Fund* - Supports the operating funds to keep our community beautiful and safe while meeting our community's greatest needs.

*Skilled Nursing* - Provides a homelike setting with outstanding medical, emotional and spiritual care through all phases of life.

*Rehabilitation* - Delivers peace of mind with great results. The expertise and quality professional care to regain physical and emotional abilities.

## Rita Fox's Story

For over 28 years the residents of Peter Becker Community have been blessed by the kind heart and beautiful smile of Rita Fox. Joe and Rita bought one of the first cottages on Crescent Lane. For the first 6 years that they lived at Peter Becker Community they both worked full time, but they had a strong desire to connect with their neighbors. After retiring Rita started to volunteer at the PBC switchboard and Joe drove the van for many community activities. They loved to be involved. Volunteering helped them build relationships, and feel more a part of the community.

Serving together has a way of knitting hearts together and soon their neighbors grew to be close friends. Rita found comfort and support from these close friends after the passing of Joe, helping her through this difficult time. Volunteering with her friends Rita found joy and hope again.

Rita's heart of service is seen in every corner of this campus from distributing water in skilled nursing, cashiering in the Thrift Store and to serving as a member of the PBC Auxiliary (Secretary, Fundraiser, and coordinator of the Fashion Show). Rita's heart for service and love for people is a true example of the vital difference volunteering can make in the quality of life of our community..

## Benefits of Partnering
